¹ Remote presentation international - presentation room.

List of Works Accepted / Trabalhos Orais Aprovados:

Listed by 1st author' name / Identificação (ID)

Alex Batista Moreira Rios	120	More science! Considerations on scientific literacy in a public school in central Brazil
Aline Sueli de Lima Rodrigues	52	Empowering environmental awareness through art: a creative approach to solid waste education in elementary schools
Amanda Moura Badarane	50	Sexuality: Negative Factors That Influence The Development Of Sexual Education In The Context Of The Federal Institute Of Education, Science And Technology Of Acre - IFAC
Amanda Rocha Rodrigues de Rezende	35	Study on oscillations in Brazilian and international publications
Ana Carolina Soares Piedade	132	A study on sustainable alternatives through investigative experimentation based on the synthesis of bioplastics
C. M. Koch	243	Inclusion of deaf people and biology teaching
Caio Moralez	242	Building Playful Resilience in Chemistry Students
Carlos Cezar da Silva	109	Liquids: A Paradidactic Book for Teaching Chemistry and Scientific Literacy
Carlos Eduardo Filinto da Silva	173	Spatio-temporal dynamics of land use and occupation in the municipality of Rubiataba (GO) from 1985 to 2022
Cinthia Maria Felicio	87	Exploring Sign Terminology In Environmental Education For Promoting Deaf Students' Citizenship
Cinthia Maria Felicio	90	Exploring Active Methodologies in Science, Cultural Diversity and Environmental Education
Cinthia Maria Felicio	116	Affordable Sensors For Ozone Detection Under Science-Technology-Society Study
Cleiton Cesar Da Silva Pereira Junior	114	Essential Oils as an Alternative to Antimicrobials for Salmonella sp. Strains
Cleiton Cesar Da Silva Pereira Junior	115	Perceptions and Challenges of Teacher Education Students in Iporá, Goiás: A Preliminary Study
Daianna Lima Da Mata	69	Evaluation of Mental Health, Food Consumption and Dietary and Nutritional Insecurity in IFG Integrated Technical High School Students
Dana Mandikova	09	Activities of the Department of Physics Education, Faculty of Mathematics and Physics, Charles University
Dayane de Jesus Silva Guimarães	136	Initial Teacher Training in Focus: Enhancing Teaching Learning with Active Methodologies in the Internship
Denise Balmer	10	Sustainable Science
Douglas Carvalho de Menezes	168	Virtual Learning Environment with Flipped Classroom
Douglas Souza Pego	204	Science, arts and philosophy education as tools for confronting neoliberalism: the role of natural science teachers
Dyana	246	Interfaces of racial equity in health and education: training professionals for the Unified Health System in Brazil
Eduarda Duarte de Souza	129	The three levels of knowledge and types of experimentation: a thematic project based on the anime "Dr. Stone"

Elen Carolina Ferreira Moura	183	Investigative Teaching in elementary school (final years): A challenge for science teachers in the context of a public school in Iporá.
Emanuelly de oliveira mecnas	49	Strategies for teaching botany in elementary school: narrative of a graduate student during the Pedagogical Residency Program
Estael de Lima Gonçalves	19	Gender, Sexuality, Disinformation, and Educational Politics in Brazil
Fabiana Alves de Carvalho	189	3D Printing in Science Education: A State of Knowledge Survey,
Fabiana Marques	245	Using Of Comic Books For Teaching Topics In Environmental Chemistry
Fernando Rocha Rodrigues	67	Between reading and literacy: a literacy project in prison
Gabriel Araújo Freitas	125	Inventive Training of Mathematics Teachers – Challenging the Method of Representation
Gabrielly Cristiny Souza Gomes	55	Active Methodologies in Chemistry Teaching: An Innovative Approach with the 'Chemistry Uno' in Youth and Adult Education
Geovanna Gomes de Jesus	105	Teaching Science and Maker Education in the Supervised Curricular Internship
Guilherme Mendonça Nascimento	158	A Brief Study On The Cerrado Theme And Its Developments In Science Education
Halline Mariana Santos Silva	153	Science in Elementary School: The Playful Experience of Effervescent Colors
Hellyana Rocha E Silva	58	Tessituras project: reading and the act of reading as a principle for living
Hutson Roger Silva	113	Educational and Sustainable Robotics in the Manga Indigenous Village
Hytalo Silva de Sá	161	INTINERANT BIOLOGICAL SCIENCE WORKSHOPS PROJECT: An Innovative And Inclusive Proposal
Iarítssa Sousa Maia	181	Enhancing the use of ICTs by approaching the topic of racism with undergraduate students from UEG-UnU Iporá
Iryna Berezovska	12	Distance Education in Ukraine: from COVID-19 to the Long-last Armed Conflict
Javier Diz Bugarín	46	A new radio module for an ancient weather station
Jéssica Pereira de Oliveira	59	The Problem of Two Falling Objects: Using Inquiry-Based Teaching to Build Concepts of Air and Resistance
Joana Cristina N. de Menezes Faria	21	Environmental education for deaf students: the vowels of the cerrado biome from a bilingual perspective
Joaquim O. Carneiro	302	Solar Energy and Sustainability: the Portuguese Situation
Joaquim Pedro	247	Efficiency of the Pirenópolis City Wastewater Treatment Plant in Relation to Environmental Regulations
Josep Joan Centelles	07	An Escape-Room about Carbohydrate Metabolism prepared for Chemical Students
Juliana Balbina Gomes Ferreira	38	Research on experimental activities in Chemistry in the educational context in Brazilian and foreign journals
Karollainy Santos Silva	130	Gamification as a Methodology of Active Learning in Biology Teaching.
Kseniia Minakova	06	Creating of STEM – Equipment: DIY Solar Lantern
Leandro Daniel Porfiro	223	The Importance of Teaching Relativity in High School: Relationship with Technologies and the Popularization of Science
Leila Miguel da Costa Furtunato de Lima	214	Exploring the Potential of Robotics Tournaments in Science and Mathematics Education: Challenges and Opportunities

Leonice	53	Reading in prison: a reading therapy experience with incarcerated women
Letícia de Almeida Nogueira e Moura	137	"My Lunchbox, Our Health": Innovative Food And Nutrition Education Practices
Lidiane Costa Da Silva Matos	72	Sustainable Bazaar: Applying Mathematics to Minimize Environmental Impact in Fashion Production
Lorrana Nara Naves Nóbrega	117	Development of a Virtual Learning Object for teaching oxygenated organic functions
Manença Cristiano Nhangá	103	Evaluation of heavy metal contents in plastic bags used as part of food cooking containers: A socio-educational sustainability perspective in Mozambique
Marcus Vinicius Nunes Martins	179	Birds of Serra de Jaraguá State Park
Maria Aparecida da Silva Leite	74	The development, participation and completion of a game for the Science classroom: playfulness in the construction of student protagonism.
Maria Clara Martins dos Reis	160	Formation of the Ecological Subject from a Racialized Perspective: Challenges and Contradictions in the Context of Capitalism
Maykon Favoritto Araújo	163	From historical context to educational and governmental action: The urgency of environmental education for the preservation of the natural resources of the Cerrado
Mirelly De Medeiros Correa	44	What is the role of Citizen Science in the knowledge and conservation of Brazilian mammal fauna?
Sue Dale Tunnicliffe	300	Hands-on Holistic STEM in the play Cycle and Think and Do-
Amauri Betini Bartoszeck Sue Dale Tunnicliffe	500	Introductory study: How children represent vegetables on drawings from an organic garden.
Nara Alinne Nobre-da-Silva	192	Development of classes by Chemistry undergraduates on the topic of Laboratory Waste
Nathalia Hammes	210	Tackling the Urban Heat Islands Phenomenon. Development of Co-axial Fibers with Phase Change Materials
Nívea Rodrigues Borges	25	Istrategic implementation in decision-making in microenterprises: a literature review
Nora Ney Santos Barcelos	197	High School, students take the lead in their learning about Protein Synthesis
Nora Ney Santos Barcelos	202	With Art and Educational Games in High School, students take the lead in their learning about Protein Synthesis
Pabllo Abreu Alves	29	The relationship between moral sensitivity and ethical decision-making in chemistry students
Paulo Jean Pereira Alves	141	The Leadership of Xakriabá Women: Protagonism, Resistance, and Transformation
Rafael Gomes da Silveira	118	An exploration of radioactivity in the universe of scientific cinema.
Raphael de Aquino Gomes	92	Gamification and PBL in the development of soft skills: A hands-on approach in the IFG Training 4.0 Program as a sustainability practice
Renato Oliveira Abreu	209	Application of an Investigative Experimental Activity in Elementary Education: Newton's First Law
Roni França Silva	18	Initial training of science teachers for the mobilization of STSA Education and Science Education in the school context
Rosenilde Nogueira Paniago	194	Training of Research Teachers: Innovation and Teaching of Science through Research
Rodrigo Guimarães Prudente Marquez Cotrim	191	Indigenous Food Context in Brazil's Midwest: Habit, Restriction, Imposition, and Food (in)Security of Indigenous Peoples of the Brazilian Cerrado
Samyres Barreto Cruz	96	Queimada Química do 9 ° ano e 1ª série do ensino médio: Explorando os Elementos da Tabela Periódica por meio das metodologias ativas

Samyres Barreto Cruz	167	Criação de Modelos Didáticos de Baixo Custo para o Ensino das Propriedades dos Metais
Sara Antonia Da Silva Dutra	151	Color Chemistry: Experimentation and Integration of the Three Levels of Knowledge in Basic Education
Sue Dale Tunnicliffe	3	In The Beginning - Learning About The Biological World
Suélio da Silva Araújo	150	Environmental Education in the 8th Grade of Elementary School II in a Full-Time School: Analysis and Practices
Susan Dale Tunnicliffe	1	Developing STEM skills and understanding in Holistic STEM through STEM STEM-E and STEM phonics in pre-school play.
Tattiana Fernandes de Oliveira Melo	199	Sucupira Opinion: a milestone for brazilian graduate course
Tháísa Cardoso Nascimento Borges	17	Creation Of Signs In Libras For Biology And Chemistry Disciplines
Thallis Luan Severo Cardoso	118	Chemistry of Colors: Teaching Strategies in Inclusive Education
Thayane Fernandes Mendonça	42	"Drawing becoming knowledge or knowledge becoming drawing?"
Thiago Qualhato	244	Anatomical Drawings In Horses: A Didactic Strategy For Teaching Anatomy To The Deaf
Thiago Wedson Hilario	30	Investigative Practices Workshop for Early Childhood Teachers: An Experience Report -
Vagner Neto Ribeiro	94	Games in ecology teaching: a documentary review of the REnBio journal
Vanaldo Pires Azevedo	95	Memórias em Cartas: Desvendando o Sistema Solar através de Metodologias Ativas
Victor Fernando de Matos	140	Decision-making based on statistical data: building a recreational gymkhana through the use of TDIC
Victor Gabriel Henrique Oliveira Mendanha	142	Integrating Practical Laboratory Activities into Chemistry Teaching
Victor Gabriel Henrique Oliveira Mendanha	144	An Investigation of Radioactivity Through the Medium of Scientific Cinema
Victoria Matias Avelar Maeda	221	Usage Of 3d Pen In Chemistry Teaching For Visually Impaired Students
Weber Hanry Morais e Feu	62	Handmade microscope as a teaching resource in public education
Weber Hanry Morais e Feu	148	Touching the Sky - Tactile and Interactive Astronomy
Websa Paula Souza Silva	48	Reading Comprehension of Scientific Articles in Integrated High School
Wiara Soares da Silva	215	Exploring the Cerrado: Challenges and Opportunities in the Integration of Robotics in Science Education
Willyan Henrique de Azevedo Martins	36	Working on Ethnic-Racial Diversity and Science with Elementary School Students in Their Final Years
